Great Earthquake in Southern Italy.

Rome, June 7.—A violent earthquake has occurred in central and southern Italy. Twenty people are dead at Calitri. It is feared there is a heavy loss of life elsewhere. A large part of Calitri is destroyed. All the telegraph wires are down. The fate of many villages in the terror zone is unknown. There is a special emergency meeting of the cabinet in session here.

The earthquake is the worst since the destruction of Reggio and Messina. Hundreds are believed to be dead. Many towns are destroyed. The seismic wave is reported to have swept the Gulf of Macedonia on the Adriatic, and grave fears are felt for Bari, a city of 80,000.

The first reports said the earthquake was felt through the provinces of Basilicata, Campania and Calabria, in Sicily, as well as in Apulia. When the news was received at the vatican the pope immediately retired to the private chapel to pray for the people in the affected districts. Both the king and queen are greatly affected by the disaster.

Premier Lazzari has summoned all the resources of the government to ascertain the extent of the disaster, and take measures for relief.

The valley of Avo is the chief sufferer. St. Angelo de Lombardi, with 7,000 of a population, and Conza, 10 miles southeast, with 1,500, are reported destroyed.

The cathedral of Conza is in ruins. Potenza, 17,000 population, also suffered as did Canosa (25,000). Rionero (12,000) and Trinitapoli (10,000) are both sufferers from the earthquake.

It is feared that much territory in which 200,000 people live is affected. The unaffected parts of Italy are in a panic. Crowds fear the earthquake, and refuse to enter the churches.

Troops have been ordered to the stricken districts. Calitri is placed under martial law. Smoke is arising from the small hill towns and hamlets ruined by the shocks and set on fire. Weeks will probably elapse before the full extent of the loss is known. There were several shocks of increasing intensity, so severe that the occupants of buildings were killed as they fell from their homes by falling walls.

Rome, June 7.—The Italian parliament this afternoon voted \$1,000,000 as a relief fund for the earthquake sufferers.

King Victor Emmanuel to-day left for the earthquake zone in a special train in spite of the protests of his advisors. The king said: "My place is where I can do most good."

Naples, June 7.—Naples was to-day shaken by severe earthquakes. The shocks continued on the coast to the south, including Salerno, and the death list will run into hundreds.

Vesuvius is giving signs of eruption and panic prevails. Despatches from Atelino, 28 miles east of here, report heavy damage in the surrounding country. There is a population in the Atelino province of 150,000, and in Atelino itself of 18,000.

Many villages in the Apennines are thought to be destroyed or badly damaged.

Canada Wins Twenty Five Per Cent of All World's Prizes.

Vienna, Austria, (C.A.P.), June 2.—In the International Sports exhibition here the Canadian sports trophies exhibit in the C.P.R. pavilion has won 25 per cent. of all the world's prizes.

There is a splendid display from Alberta which is attracting the greatest attention. Canada's name is mentioned by all visitors as they leave the pavilion.

Now Ladies

INVESTIGATE

The Hero White Cloud

Washing Machine.

You can see one in operation in our store.

It is the simplest, and yet the most perfect washer of them all.

Any husband can operate it with one hand tied behind him. Think of that.

Take it home and try it. If it is not the best washer you ever used, get your money back.

THURSDAY, JUNE 9, 1910

Stay out of church once in a while and enjoy a wholly Sabbath day.
There's more religion in the labor of a man's hands than there is in
the way of his jaw.

The devil may not personally attend experience meetings but he is al-
ways represented there.

No man has a right to let himself get poor either financially or physi-
cally while he argues religion.
If the Government had kept the camp-meetings popular there would
have been little need for a vigorous immigration policy.

"Rings on his fingers, and bells on his toes"—Hon. Archie
McLean will be returned in this constituency by acclamation. His very worth
demands it. We don't care three whoops whether he was an insurgent, or
that his sample of insurgency was of an irritating character to the Ruther-
ford government.
We know that the Sifton Government is a political hand-me-down, a
mere makeshift, but it is an administration just the same, and we want
one capable administrator in the Cabinet. Hon. Archie fills the bill.

Gold, frankincense and myrrh.—The late Chief Justice of Alberta
discovered that from the supremacy of the law to the Premiership of the
province was a reasonable distance.
He also discovered that even the purple and ermine may be
caressed by political hands. He also made patent the proverb that even a
lieutenant-governor may never rise above the needs of his political
patrons.

That the conferences between Lieut.-Governor Bulyea and Premier
Sifton were more party caucuses goes without saying. The party must be
saved first after that the Province. Had Lieutenant Governor Bulyea
been anxious about the latter he would not have hesitated to have
demanded the resignation of Rutherford long ago. That might have given
the insurgents the opportunity they suggested but never demanded. These
insurgents were capable, they were honest in their convictions, they had
the instinct to rebel which is akin to the desire and ability to rule. Why
did the Lieutenant Governor hesitate? How is it that the needs of
the province have been met aside for the essentials of the party?
For this reason. The elements of insurgency in the Legislature are
Liberals, while the choice of the Lieutenant Governor, for Premier, and the
latter's choice for Cabinet Ministers are machine-made Grits.

Premier Sifton will not go to the country. He dare not, and if he
dared the counsels of the party would forbid him.
To accept the inevitable defeat would be embarrassing to the least, and
would demonstrate to the machine that the west desires to feed at the
political pot-pourri with its own spoon. A common ladle may have germs,
and besides the dose may be larger than we care to swallow.

We beg to differ.—We are satisfied that a Provincial convention of
Liberals would be a success. The man who is not content with the support of
Arthur L. Sifton to the leadership, that he is the choice of the great
majority of Liberals in the province for the leadership of the party. He is
recognized generally as the most capable man, especially at this critical
stage in the history of the province. He is a man of great foresight and
wisdom, and under his leadership, the Liberal government will be some-
thing worth boasting about.

Many of Mr. Cushing's admirers believe he should have been chosen,
and the conservative organization would have been delighted, also, for they
know that the discord in the Liberal party would have been prolonged, just
as it would had Mr. Cross been named, as his followers greatly desired,
and their agent to power would have been much earlier than it will be
now since Mr. Sifton has taken hold of the direction of affairs.

The above from the Lethbridge Herald, is a delightful pinch of endorse-
ment and criticism, and coming from a man who has not been set aside for
political reasons is indicative of a breadth of view has always accorded to
politicians. The question has often been asked since Premier Sifton came
to the throne and made his choice of Cabinet associates, what about
Buchanan? That minister stayed by the ship until he was assured that
the captain and the mate were heading for the rocks. Then he grabbed a
plank and swam out. He was never an insurgent in the accepted sense of
the term. It looks from this view-point as if Buchanan had acted from
principle, and if that counts for anything he had as much right in the
Cabinet as Hon. Duncan Marshall. Possibly he has the spirit of prophecy
within him that tells of disaster in the days that are to be.

The members of the Sifton cabinet will soon approach their con-
stituents asking for a renewal of confidence. The Premier has two or
three choices for seats but will likely contest Gleichen with E. H. Riley.
How these silly snobs? Have you an idea that Riley would beat him?
So have the rest of us.

Old Bar A.—The passing of the rancher, the cowpuncher and the
horse wrangler is as uneventful as it is pathetic. The following in the
metre of Kipling's, "On the road to Mandalay," is published as fitting,
and for this privilege we are indebted to Const. Coleridge of Grassy Lake.

Out beyond the crooked brazos where the world is big and free
There's a broncho pony roamin' that I know remembers me,
For the Mesquit trees they whisper, and the prairie winds they say,
"Come you back you Texas cowboy, come you back to old Bar A,
Come you back to old Bar A, where the old gang used to stay,
Can't you hear their spurs a-chinkin' round the corral at Bar A,
Where the flyin' lariats play, till the sun rolls off the prairie
Down the canyons of Jose?"

His temper wasn't pretty and his eye it looked like sin,
And his name was Little Tophet, fit him too just like his skin.
Oh I seen him first aspin' in the sky with both hind feet,
Havin' the strange delusion that a cowboy's good to eat.
And right there I says, we'll see which is boss here, him or me.
'Twasn't much he cared for buckin' at the end of that meles,
In the corral of Bar A.

The flowers were bloomin' stirrup high as far you could see,
An' I reckon Heaven ain't better than a Texas May can be,
I'd get me workin' saddle, and I'd whistle soft and low,
And we'd drift across the prairie while the East began to glow,
Watch the stars a-fading slow, and the wolves a-skulking low,
And the creek wind mills waiting for a wind to wake and blow
Down the range to old Bar A.

But them roving days are over and my heart is far away,
And there ain't no trails meander from the hub of old Bar A,
And I, I learn, live in Boston what the old time puncher tells,
If you've heard the West a-calling, why you won't hear nothing else.
No you won't want nothing else but them cedar and cedar fire smells,
And the South wind playin' fancy tunes upon the Yucca bells
'Long the trail to old Bar A.

I'm sick of parks an' libraries and symphonies an' art
And this talkin' out of grammars is a-shrivellin' my heart
An' this horse I ride out mornings where the green trees stand in rows,
Would he ever know a doggy any further than his nose?
Oh he's pedigreed I s'pose an' he does the best he knows,
But for ridin' give me Tophet and some proper feelin' clothes
On the range at old Bar A.

Dump me back upon the prairies where there ain't this culture thirst,
Where there ain't no social questions and the last man's good as first,
For the prairie winds are calling and its there that I would be
Back out there in dear old Texas where the world is big and free.
On the range at old Bar A, where the old gang used to stay.
Trading yarns and branding yearlings at the roundup on Bar A,
Where the flying lariats play, and the sun rolls off the prairie
Down the canyons of Jose.

From the Sanctums.

What the editors are saying.

It should be. Lethbridge Herald:—Judge Mitchell and Walter
Huevake, the likely candidates in Medicine Hat, are brothers-in-law, and
the fight ought to be friendly.

Sad to relate, they are but few. Calgary News:—Will some
one kindly figure out the number of the insurgents who continue to insure?
Wonder if any of the remaining insurgents will be seized of the virtue
of resignation?

Lethbridge Herald:—An Edmonton newspaper man travelling in the
east has a suit case and an overcoat stolen, but was not touched for \$1,800
he had in his pocket. The one worn question "Where did the money
come from?" is now being asked.

How did he go? Hamilton Spectator:—Newspaper headlines tell
that the Premier Rutherford, of Alberta, has resigned. The perusal of the
news dispatches indicate that it wasn't quite so easy as all that. Looks
very much as if he was kicked out.

Might help some. St. Thomas Times:—With seven cases of wife
murder in Ontario since the beginning of 1910, the establishment of a quick
divorce court might be the lesser evil. Most wives would prefer being di-
voiced to being unexpectedly slaughtered.

A circulation booster. Calgary Herald:—A newspaper offered a
prize for the best answer to the conundrum: "Why is a newspaper like a
woman?" The prize was won by a lady in Oklahoma, who sent in the
following: "Because every man should have one of his own and not run
after his neighbor's."

Too true. Montreal Gazette:—Some eastern Liberal papers evi-
dently do not feel comfortable over the situation in Alberta, where a
Liberal prime minister has been forced out of his place because he and his
colleagues made a bad bargain with a lot of railway promoters and hurt the
province's credit. If the Alberta precedent should spread there might not
be many Liberal prime ministers left to dispense patronage to their flat-
terers.

That's right. Calgary News:—At the convention of the Canadian
Medical Association in session at Kingston, Ont., Dr. Wood, of that
city, gave a paper on "Apendicitis in Children," and scathingly rebuked the
medical profession for its ignorance of the subject. It's a mighty good
thing for Dr. Wood that he does not appear before the Alberta medical con-
vention assembled and talk that way. We have in mind a few old stal-
wards any one of whom would be willing to fight upon the scuffer like a
bee on a posie.

The evidence of worth. The Calgary News: The Hon. Archi-
bald J. McLean is another new man, who, it is believed, will make good as
an administrator. In the provincial election of 1909, he ran in Lethbridge
district as an independent Liberal, against the nominees of the convention,
and was elected by a good majority. He has large business interests in
Southern Alberta, and has been successful in managing them, which is a
pretty safe indication that no mistake was made in choosing him to super-
intend one of the public departments of the province.

"Hear ye; Hear ye!" The District Ledger:—Why should this
country burden itself with the expenses incident to floating junk piles in
the shape of battleships, cruisers, torpedo destroyers? Junkpile may be
considered a wrong term to use to these Leviathans of the sea, but the in-
quisitive who delight in looking into the cost, life and final resting places
of these monuments to man's stupidity, have only to investigate statistics
and ascertain for themselves that the bulk of them are declared obsolete
and destroyed from time to time without performing any function whatso-
ever except furnishing a temporary abode for several thousand trained fight-
ing men.

Lawton, Okla., June 3.—Never
will the Apache prisoners of war on
the Fort Sill military reservation hold
another "lovers' dance" if the Chris-
tian missionaries among that tribe,
once led by Geronimo, can prevent it.
As far back as history goes the
"lovers' dance" has always been a
medium by which Apache maidens
selected their suitors.

The recent dance was held at
Hyar's hole, a noted spot on Medi-
cine creek, and was participated in
by large delegations of Comanches,
Kiowas, Caddos, Arapahoes and
Cheyennes.
Each marriageable buck wore his
best garb. This is the only time in
the life of the young members of the
tribe that they are permitted to make
love or even speak of love, and the
spooning is in earnest.

The meekest man for 1910 hails
from the East and landed in Calgary
last week. His name is Parks, and
while in the Holy Cross Hospital in
that city met a man by the name of
McKenzie. As Parks was in a busted
financial condition, McKenzie gave
him \$30, and a bill of lading for a
tent. Parks was to have the tent
set up and ready for McKenzie when
the latter got out of the Hospital.
Parks got the tent from the freight
office, sent it to a second hand dealer
and, and despatched with all the money
but the police got him in Winnipeg

News, Notes and Comments

Calgary's city hall is to be completed.

Calgary is extending its street Railway lines.

New York plans to have a World's Fair in 1913.

The Methodist Conference is in session in Red Deer.

The Methodist Conference will meet next year in Edmonton.

Thos. Hardy the English novelist was 70 years of age on the 2nd of June.

Calgary may use the natural gas to light a portion of their business streets.

D. M. Kimball, late of Grassy Lake, Alta. has gone to Lethbridge to open a Real Estate office.

Calgary is to have a departmental store. The Price-Jones of Canada, Ltd. The firm is an off-shoot of an English concern.

E. H. Riley member for Gleichen resigned his seat in the local house as a protest against the selection of Sifton as Premier.

Served Him Right.

Fornie, June 3.—Armstrong who was stabbed at Michel on May 23 by Vera Hall, was sentenced yesterday to thirty days imprisonment for kicking the girl. She was committed for trial.

The Canadian Tooth Carpenters Convention Disperses.

Toronto, June 4.—The Canadian dental association leaves to executive committee of next meeting place. It is understood that it will be either Niagara Falls or Montreal. Convention is over.

We'll Stay With the Coal.

The past experiment station at Alfred, Ont., has been so successful that the government is now considering the question of placing similar stations in other parts of the country.

One of the objects of this is to supply not only the farmers of the prairie but the rest of Canada with fuel to make them independent of the coal supply of the United States.

Stations of Methodist Ministers.

The first draft of stations for the Lethbridge district is as follows:

Lethbridge: Wesley, T. P. Perry; Westminster, A. A. Lytle; Wilson's Siding, Geo. Ritchie; Coalvale, W. L. Wright; Milk River, W. D. Taber; J. R. Rowley; Lone Star, J. H. Robertson; Sweet Valley, A. McCombie; Iron Springs, Geo. Palmer; Allison Ridge, W. M. Forshaw; Barons, A. G. Hagar; Noble, K. Kingston; Macleod, J. W. Harrison; Macleod South, J. L. W. Gramm; H. H. Crogg; Montrose, C. H. J. Gaudin; Poncha Creek, R. E. Finley; Cowley, H. S. Hornby; Fishburn, Robt. Calam; Bellevue, T. D. Jones; Frank, M. Bates.

'Twas Ever Thus.

Chicago, June 4.—Six women are seriously injured to-day, four are under arrest, and a gang of carpenters are at work in Barson's merchandise store making repairs, as a result of an over-enthusiastic bargain counter rush yesterday afternoon in which several hundred men and women all participated. The rush was only stopped when a flying squadron of bluecoats arrived in answer to a riot call.

A fire a week ago in Barson's store which is at 1251 South Haisted street, was indirectly responsible for the riot yesterday. As a result of Damage by fire and water, a sign was placed on the building Saturday, announcing that prices had been cut in two and that the sale would be open at 8 o'clock in the morning.

Long before the hour set for the opening of the store, a throng of men, women and children gathered in the street. Many of the women were carrying babies.

When the doors of the store were thrown open several men in the rear of the crowd formed a "flying wedge" and moved their way through the throng, knocking down women and children. A clerk standing near the front door told the police that when the patrons began to "arrive" they appeared to have been shot from a gun.

The proprietor, who reached his store at 7.30 o'clock, was caught in the mob and never got nearer than across the street, from where he viewed the wrecking of his establishment.

Election Writs Issued.

Edmonton, June 7.—Writs were issued for the bye-elections in Vermilion, Medicine Hat and Lethbridge districts.

Premier Sifton will run in Vermilion, Former Judge Mitchell in Medicine Hat, and A. J. McLean in Lethbridge district.

Nominations will take place on Wednesday, June 22; and the election on Wednesday, June 29.

Arch Campbell, member for Vermilion has resigned in favor of the Premier, who will probably be elected by acclamation.

Hon. C. R. Mitchell, the new minister of education and attorney-general, will have opposition in Medicine Hat, his brother-in-law having been nominated by the Conservatives.

Hon. A. J. McLean, provincial secretary will be elected by acclamation.

This still leaves two and possibly three constituencies in which bye-elections will have to be left to a later date. These are the Macleod constituency rendered vacant by the death of Colin Genge, M.L.A.; Gleichen vacated by the resignation of E. H. Riley, M.L.A., and possibly Lac St. Anne, where the member, Peter Gunn, has been appointed Dominion fisheries officer, and will have to resign in order to hold his position.

It is stated among strong Conservatives that no candidate for their party will run against Mr. Riley in his fight for re-election. The Government will probably run a candidate, and among the knowing ones, P. J. Nolan, K.C., is spoken of as the favored man. If this is so the fight in Gleichen will be interesting, and both men will have considerable knowledge of the A. & G. W. deal, which will, without doubt, be the main issue on which they will fight. Mr. Nolan refuses to say anything about the matter other than the newspaper talk is the first he heard of such a thing, but he would not say whether he would run or not if given the nomination.

In the south there was a persistent rumor last week that J. W. Woolf the member for Carleton, had resigned, but on being questioned regarding the matter over the long-distance telephone, Mr. Woolf stated very emphatically that he had no intention of resigning or of quitting politics in the near future.

That the majority of the insurgents are cooling down is now evident, and it is probable that when the legislature meets again they will see an almost undivided Liberal party. Both Messrs. Holden and Smith, the members for Vegreville and Camrose, respectively, who were among the most rabid insurgents, have announced that they will give the premier a chance to show what he can do in the way of bringing order out of the chaos, and financing some sensible policy before they declare for or against him.

Other insurgent members have stated that the action of Riley was in their opinion, hasty and ill-considered, which would indicate that the Cushing faction is steadily and surely losing ground all along the line.

Peary Welcomed by King George.

London, June 2.—King George to-day paid unusual honors to Robert E. Peary, discoverer of the North pole, summoning him to Marlborough House for an audience. The American took occasion to wish England, through the Crown, success in the hunt for the South pole for which the Scott expedition ship, Terra Nova, left yesterday.

Commander Peary expressed keen disappointment that the plans for simultaneous American expedition had fallen through. The king also declared that failure of the proposed race caused him regret.

Commander Peary was taken to Marlborough House by Ambassador Reid. For more than half an hour he remained with the king. Most of the time was taken up with a recital of events of the hunt for the North pole. The king exhibited great interest. He seemed particularly pleased that a British subject, Capt. Bartlett, had taken a prominent part in the expedition that had finally conquered the Arctic.

Edmonton Liberals Endorse Sifton.

At a meeting of the Edmonton Liberal Association the following resolution was passed.

Resolved, that the Edmonton Liberal Reform association hereby expresses its satisfaction on the selection of Hon. A. L. Sifton, as premier of the province of Alberta, and reposes confidence in him as leader of the Liberal party in Alberta; and the association feels assured that his selection of ministers will meet with the entire approval of the Liberals of the province.

WANTED. For the Canada West Coal Mine, a good car repairer.

ASPECT OF

ZAM-BUK

IT SAVES MOTHERS MONEY

Zam-Buk spells saving to a mother. Instead, wife or some member of the family sustains a cut or a burn, scorch, which festers or turns to blood poisoning. Result—off work! What does that mean at pay day? Zam-Buk prevents wounds, cuts or injuries from turning to festering sores. Apply it immediately, and it kills the poison and staves healing.

There is another aspect. If you have in the family, or among your friends, or any skin disease, try Zam-Buk first—don't spend money on experimenting! You will have to get Zam-Buk eventually. It is the only skin medicine that is safe and sure. It is the only skin medicine that is safe and sure. It is the only skin medicine that is safe and sure.

There is another aspect. If you have in the family, or among your friends, or any skin disease, try Zam-Buk first—don't spend money on experimenting! You will have to get Zam-Buk eventually. It is the only skin medicine that is safe and sure. It is the only skin medicine that is safe and sure. It is the only skin medicine that is safe and sure.

THE PROFITS OF THE MINES

IN magnitude and importance the mining industry ranks second only to agriculture among the foundation industries of the United States. It now contributes over \$2,000,000,000 annually to the national wealth, as compared with \$750,000,000 from agriculture; but it contributes sixty-five per cent. of the freight traffic of the country.

CHIM Cigarettes

TEN FOR TEN CENTS

The Horseman

THAT the hateful hoppel was in a few years be a thing of the past is a foregone conclusion, but the great breeding interests and the vast majority of the leading minds of the horse world are not going to submit to the old-fashioned snail of the little tail wagging the big dog. The trainer who can do the work connected with the mining, handling and treatment of the mineral products, 1,000,000 of whom work in the mines, it is the basis of the larger portion of the nation's varied manufacturing interests and of its supplies of heat and light.

The production and consumption of mineral products are how increasing so rapidly that the value of the products of the mines for the current decade will be nearly two and one-half times that for the preceding decade.

That Reminds Me

THE MAN: "I wish you would endeavor to show me a little more affection. You never even call me 'dear,' as other men's wives do." The Woman: "Do other men's wives call you 'dear'?"

HAR, oh, dear," sighed Mr. Salloway, "I wish I knew some good way to acquire an appetite." "Nonsense!" exclaimed his wife, "what do you want with an appetite? It would only give you more dyspepsia."

MRS. GRAY: "What did she say when you told her I first met my husband in a big shop?" Mrs. White: "She remarked it was wonderful what a lot of cheap articles were to be picked up in those places."

LADY HUSHINGTON (to great lady): "You asked the last song beautifully. I was in the upper room, but I heard every word, I'm afraid." The Great Tenor: "But I have not sung! I am next."

THOSE bridge disasters are terrible, I remark the man who was reading of bridges being swept away by the river floods.

"I should say so," replied his friend, "my wife lost all her year's pin-money in a game of bridge last night."

MRS. GOSSIP: "I wonder if it is really true that fish is a brain food?" Mrs. Hearsey: "Well, I'm sure they have some effect, for every time my husband goes fishing, when he comes home he seems too dazed to stand up."

PETER reproving her oldest son for cigarette-smoking, the mother thoughtfully remarked: "I've seen that old fellow smoking for years, and he's still here."

"No, mother," was the reply, "I have given it up."

YOU know, George," she said thoughtfully, almost fearfully, as they sat together on the rustic seat in the quiet evening, "I am counting the cost."

A manly, ringing laugh shattered the nerve of the bird, roosting in the branches overhead to a complicated hash.

"Cost? The cost? Bless you, Evangeline, don't worry about the cost. I've got a cousin who's a clergyman, and he's promised to fix us up absolutely gratis."

AN old couple took the train to Dublin, but very long ago to do a bit of shopping. They especially desired a clock.

"Now," said the obliging salesman who came to answer their wants, "here is something most attractive in the way of clocks. When the hour begins a bird comes out from the top and sings 'Cuckoo'." For example, I turn this clock to four o'clock, and the bird comes out and sings 'Cuckoo' four times.

"Well, doesn't that beat all?" exclaimed the husband, admiringly. "Father," let's take it."

"Indeed, then, ye won't!" objected Mary, decidedly. "Then clocks are all right for folks that get lots of time on their hands, but it'd take me half the day taking care of that bird."

MOTHER: "I'm afraid Gwendoline is setting her heart on that young Penniless." Father: "You think so?"

Mother: "I am almost sure of it." Father: "Well, he is not a fit person for her to marry. He is as poor as a rat, and has no prospects. Something must be done to set her against him."

Mother: "I have thought of that, and have hit upon what I think is an excellent plan." Father: "Yes, what is it?"

Mother: "We must tell her that we want her to marry him."

STIRLING

IN SUNNY SOUTHERN ALBERTA

"THE LUSTIEST BABY OF THE LUSTY PRAIRIE"

Andrew Carnegie says in his book: "Few large fortunes can now be made in any part of the world except from one cause—the Rise in Value in Real Estate."

Nowhere in the world are Real Estate values rising as rapidly as in Western Canada, and nowhere in Western Canada as fast as in Sunny Southern Alberta. It almost surpasses belief even to Westerners who are used to big things. The C.P.R. folders state: "There has been nothing in the World to Equal It."

A FEW REASONS OUT OF MANY:

(1) Sunny Southern Alberta is the home of the famous Winter Wheat "Alberta Red." One crop pays for the land. The preliminary report for the crop of 1909 issued by the Alberta Department of Agriculture states, "Numerous instances show that over 60 bushels per acre have been obtained." This Winter Wheat Belt is limited to an area in Sunny Southern Alberta, of which Stirling is in the centre.

(2) Alfalfa is grown in Sunny Southern Alberta. In a bulletin just issued by the Department of Agriculture at Washington, it states that wherever Alfalfa has been generally introduced into any state, that with-

in three years the price of land has doubled. Some of the finest Alfalfa in the World is grown around Stirling.

(3) The Glorious Climate. What the Gulf Stream is to Ireland, the "Chinook" is to Southern Alberta. The "Chinook" is a warm dry blowing from the Mountains across the Plains, melting in a few hours any snow that may have fallen, and giving to the atmosphere a pleasant dryness. Sleights are unknown in Sunny Southern Alberta. Stirling is just 80 miles from the Rockies and gets the full benefit of the balmy "Chinook."

The new town of Stirling is in the heart of this development, with two lines of railway already built and in operation, and other lines projected. Four passenger trains daily now. Last June it was open prairie. Today a thriving town with local and long distance telephone. The growth this year will be phenomenal. Buy in Stirling today.

Lots from \$75 to \$300 Each

THE BUCK-EYE

VOL. 1 WEEKLY EDITION NO. 27

A SURE CURE

Have you that spring feeling?

Is your tongue like the pet of a mink?

Do you feel as if your dearest uncle had died, and forgotten your name in his will?

Are you dyspeptic—a tired, worn-out, grouchy, hopeless bundle of nerves?

Does your pipe nauseate you, your cigar turn—figuratively—to ashes in your mouth?

Don't be alarmed!

It's not your liver.

Smoke a BUCK-EYE! Your breath will sweeten, your eye become clear and sparkling, your step firm, your whole system will recover that snap which properly goes with the western climate.

The BUCK-EYE is always the same, always the best ten cent cigar in the market.

Smoke a BUCK-EYE and be well!

Malo-Mahon Lumber Co.

LOCAL AND GENERAL

Readable and Reasonable. The Taber Free Press.

J. H. Robinson has had his implement shed painted.

The Hon. A. J. McLean was in town on Thursday morning.

Read the advertisements in the Taber Free Press. These advertisers are alive and what they have to say is worth reading.

There have been several prairie fires in the vicinity this week.

WANTED.—For the Canada West Coal Mine, a good car repairer.

Ads in the Taber Free Press secure results.

Mr. Kathrens was in town on Tuesday, from his homestead near Purple Springs.

Mr. W. W. Douglas went to Wainwright, B.C. last Friday, and is spending a few days there.

Keep busy. The tumbling water is the whitest. Advertise in the Taber Free Press, and watch for results.

Mr. and Mrs. Purcell and family, of Glasgow, arrived in town last Saturday, and are staying with Mr. and Mrs. S. J. O. Bjigh.

Mr. Thos. King, who came from Sydney Mines, N.S., to Taber, a few weeks ago, was inadvertently reported as having come from Glace Bay.

The Taber Free Press is alive, and doing well, thank you. We believe in the town, and we want the town to believe in us, and help us help you. How's that for logic?

The time for the commencement of the showing of the pictures at the Palm Theatre has been altered to half past eight. This week a very interesting film has been shown, "Animals at the Zoo," and one "The Invisible Thief." The music and singing have, as usual been great attractions.

We own and have for sale at right prices more than 30 sections of choice land lying to the southeast of Taber and south of Grassy Lake. Always in the market for good wholesale tracts from owners. Write ATLANTIC-PACIFIC LAND SYNDICATE, head office, Minneapolis, or call main field office, 2nd Floor, Alberta Block, Lethbridge.

Alex Loughheed of Vancouver visited Taber this week.

The ditching machine has moved over to the south of the track.

If you read it in the Taber Free Press it has a meaning.

Mr. S. T. McColl has had his residence on Hull Avenue painted.

Mr. T. Underwood, late of the Grassy Lake Hotel, was in town last Saturday.

The Canada West Mine will in a few weeks, re-engage the full complement of men.

Make the Taber Free Press your salesman.

A baseball game between Taber and Bow Island, will be played this evening, at half past six.

Mrs. J. Marsh and daughter came to town this week from their homestead near Purple Springs.

Will some one interested in the Reliance Mine and townsite kindly write to the editor of this paper stating where a list of the stock holders of this Co. may be found.

The Taber Free Press: the paper that woke up. Subscribe for it.

The C.P.R. seemingly never tire of handing Taber a dirty deal. The latest is the re-arranging of the time table whereby the Soo-Spokane flies passes through without a stop.

Miss M. T. King who has been assisting Dr. Lake as a dental operator for nearly five years, left on Thursday for Lethbridge, Calgary and the Coast where she will spend the summer.

The Taber Free Press has all the news that's news.

The rain, still keeps off, but the grain does not seem to be suffering to any appreciable extent so far, although without doubt moisture is needed. Lethbridge had four hours of a drizzle on Tuesday night which has been magnified to four inches of a precipitation.

On the other hand, failure to endorse the Exposition would be disastrous and is not to be expected from so astute a leader of men as Sir Wilfrid. The project is so big, it means so much to Canada; it carries with it so strong an expression of public favor in the West; is at once, so comprehensive and so obviously important to all Canada, that withholding of government endorsement would be regarded as folly, and failure properly to appreciate the value of a scheme of empire proportions and sentiment of the people in the most important section of Canada.

It is confidently expected that Sir Wilfrid Laurier will announce the Dominion Government's endorsement of the 1914 Exposition when he comes west in July or August, and there is no doubt that such an announcement from such a source will not only add great prestige to the Exposition, but will also strengthen the government's hand in the West. Liberals and Conservative are united in favor of the Exposition—are serving on its committee and working in splendid harmony to a common end—and a pronouncement of endorsement and backing of the project by the head of the Dominion Government will please the one political element and conciliate the other.

On the other hand, failure to endorse the Exposition would be disastrous and is not to be expected from so astute a leader of men as Sir Wilfrid. The project is so big, it means so much to Canada; it carries with it so strong an expression of public favor in the West; is at once, so comprehensive and so obviously important to all Canada, that withholding of government endorsement would be regarded as folly, and failure properly to appreciate the value of a scheme of empire proportions and sentiment of the people in the most important section of Canada.

The project is so big, it means so much to Canada; it carries with it so strong an expression of public favor in the West; is at once, so comprehensive and so obviously important to all Canada, that withholding of government endorsement would be regarded as folly, and failure properly to appreciate the value of a scheme of empire proportions and sentiment of the people in the most important section of Canada.

On the other hand, failure to endorse the Exposition would be disastrous and is not to be expected from so astute a leader of men as Sir Wilfrid. The project is so big, it means so much to Canada; it carries with it so strong an expression of public favor in the West; is at once, so comprehensive and so obviously important to all Canada, that withholding of government endorsement would be regarded as folly, and failure properly to appreciate the value of a scheme of empire proportions and sentiment of the people in the most important section of Canada.

Alberta Provincial Exhibition.

The Acre Yield Competition at the Alberta Provincial Exhibition to be held at Calgary June 30th to July 7th is a new idea for an exhibition. The following prizes are offered: Winter Wheat, Spring Wheat, Oats \$100, \$50, \$20, \$15, \$10, \$5, Barley, \$75, \$40, \$20, \$15, \$10, \$5, Flax, \$60, \$35, \$20, \$10, \$5.

The average amount of grain grown on an acre must be shown, and will be judged 60% for quality, 20% for purity, 15% for quality 5% for acreage. The Exhibition Company pays all freight charges on exhibits originating in Alberta. It is not likely that anyone in the province has seen the quantity of grain grown on an acre in a pile by itself, and the reader will realize what a great interest will be taken in a building where probably 50 to 100 such exhibits will be on view from all over the province. Some districts are taking a particular interest in this feature as in the case of Lloydminster Agricultural Society who have already secured six exhibits from their district. The other features of the exhibition promise to be of more than ordinary interest, and the excellent music and attractions, low rates and special trains will undoubtedly make the attendance the largest yet. The entries close on the 18th of June.

Canadian International Exposition.

Winnipeg, Man., May, 1910.—The Exposition committee is making a vigorous campaign for getting out a large vote for the civic bylaw which is to be balloted for on the second of June, empowering the City of Winnipeg to issue bonds for half a million dollars to be applied to the purpose of an Exposition grant. There is no doubt about the adoption of the bylaw, but with the public practically a unit in favor of the 1914 Exposition, there is some danger of a small vote, and to avoid that, the campaign is being sharply urged.

Stock subscriptions, for another half million to be raised in Winnipeg, are coming in freely. Besides the \$170,000 subscribed by the real estate men, the hotel keepers of the city have applied for fifty thousand worth of stock, and the list of hotel men has not been half covered. Private citizens are taking stock in blocks of from \$5,000 to \$10,000 and a short list of this class has produced \$50,000. There are at least two subscriptions of \$25,000 each from leading business houses, and present indications are that the full half million of stock will be subscribed by the business men and firms without opening the lists for a general subscription in small amounts at all.

The West is solid for the Exposition. This was demonstrated by the business men's excursion which made a tour of the prairie provinces, returning to Winnipeg on Wednesday of this week after eight absence. The trip was made for the purpose of building up better trade relations throughout the West but it was impossible that so engrossing a subject as the Exposition should fail of considerable notice. As a matter of fact, it was talked of all along the way and every reference was met with hearty endorsement of the Exposition project by the men and civic authorities of the three provinces.

It is confidently expected that Sir Wilfrid Laurier will announce the Dominion Government's endorsement of the 1914 Exposition when he comes west in July or August, and there is no doubt that such an announcement from such a source will not only add great prestige to the Exposition, but will also strengthen the government's hand in the West. Liberals and Conservative are united in favor of the Exposition—are serving on its committee and working in splendid harmony to a common end—and a pronouncement of endorsement and backing of the project by the head of the Dominion Government will please the one political element and conciliate the other.

On the other hand, failure to endorse the Exposition would be disastrous and is not to be expected from so astute a leader of men as Sir Wilfrid. The project is so big, it means so much to Canada; it carries with it so strong an expression of public favor in the West; is at once, so comprehensive and so obviously important to all Canada, that withholding of government endorsement would be regarded as folly, and failure properly to appreciate the value of a scheme of empire proportions and sentiment of the people in the most important section of Canada.

Municipality of the Town of Taber.

BY-LAW NO. 22.

Fire By-Law.

A By-Law of the Town of Taber, to define certain Fire Limits in the said Town of Taber, and to regulate the erection of buildings therein, and also to make regulations elsewhere and otherwise in the said Town with a view to decrease the danger from fire.

WHEREAS it has been found expedient and necessary to do all of the things mentioned above.

THEREFORE the Mayor and Council of the Municipality of the Town of Taber, in Council assembled, enact as follows:

1. That the Fire Limits of the Town of Taber shall be as follows: commencing at the Vicer Avenue, about Main Street East to Alberta Avenue North along said Alberta Avenue on the west side thereof to a point 125 feet North of the corner of the Front Street, thence westerly to East side of the Canadian Pacific Railway's pipe line, thence westerly along the East side of said pipe line to a point 125 feet North of Main Street, and the line North of said Main Street.

2. That no buildings shall be hereafter erected within the said Fire Limits unless a permit for the erection thereof shall have been first obtained from the Council of the said Town, after the plans thereof have been submitted to and approved by said Council.

3. That no building shall be hereafter erected within the said Fire Limits of any kind or description within that portion of the said Fire Limit described above, unless the same be constructed of stone, brick or concrete, or brick veneer, and be roofed with metal, slate, or other non-inflammable material; and unless for a one-story building there be a nine-inch solid wall of stone, brick or concrete, and for a two-story building, there be a thirteen-inch solid wall of stone, brick or concrete for the first story, and a nine-inch solid wall of stone, brick or concrete for the second story; and for a three-story building, unless there be an eighteen-inch solid wall of stone, brick or concrete for the first story, and a fifteen-inch solid wall of stone, brick or concrete for the second story, and a nine-inch solid wall of stone, brick or concrete for the third story thereof, side walls to be in every case entire without openings or with openings protected by fire doors or shutters covered with iron, and where buildings are erected in a continuous block, the division walls thereof shall be carried at least three feet above the roof.

Provided that private buildings exceeding six feet by ten feet, and not over ten feet high and covered with metal, may be constructed of wood.

4. No repairs shall be made to any building in any Fire Limit unless said repairs are made in accordance with this By-Law, such repairs of material to be used as would be used in the construction of a new building, and in no case shall a building of any kind be moved into a Fire Limit if it is constructed of any kind of material that is not allowed in the said Fire Limit by this By-Law, and no old building now in the Fire Limits may be removed from one place in the said Fire Limit to another in the said Fire Limit, or if by such removal the property already erected in such part of the Fire Limits shall be endangered thereby, and no building shall be erected unless a permit therefor shall first have been obtained from the Council.

5. No person shall place any building or other material on any part of the streets or sidewalks of the Town, except after receiving a permit to do so, and then only such part of the street mentioned in such permit, immediately in front of the ground to be built upon or the building to be repaired or altered, and such material shall not be piled to a greater height than six feet nor so as to obstruct the free passage of water in the drains, gutter or water courses along the sidewalk, nor shall any person dress stone, or timber on any street in the said Town or pile or place any material or earth taken from the site of any building upon any street or lane in the said Town unless a permit has been first obtained from the Council, in writing, for the same.

6. Any party that shall have been built conformable to the requirements of any By-Law regulating the construction of such walls in force at the time of construction, if sound and in good condition, may be used in the construction of any adjoining building.

Provided that no brick work shall be placed in such wall to give an additional height to the wall unless the thickness of such additional wall and the thickness of the old wall shall equal the thickness required for the divisional walls.

In cases of outside walls of any business building being built against the wall of any old building (not being a party wall) the new wall shall be of the same thickness as required for outside walls in such building.

7. External walls shall not become party walls unless the same have been previously erected in accordance with the provisions of this By-Law. Ends of timbers lying through old party walls shall be cut off when new buildings are erected against them. The brick work in all party walls shall be properly bonded in each case.

8. All party walls must be between house and house except in parts where all buildings erected in a terrace or row shall have one brick division wall at least in every thirty feet in length frontage, and said division walls must be equal in thickness at least to that required for outer walls and shall be carried eighteen inches above the roof.

9. Any removal or raising or enlargement of any building shall be considered a re-erection and subject to the terms of this By-Law.

10. No wooden sills or posts shall be made a part of the foundation of the main walls of any building hereafter erected, altered or repaired within the Fire Limits.

11. Any building or buildings which may be erected, constructed or placed in the Fire Limit contrary to the provisions of this By-Law, shall be pulled down or removed at the expense of the owners thereof.

12. No building or buildings shall be erected, constructed or placed on old or new foundations or on foundations partly old and partly new, or shall be removed to or placed with walls of such buildings shall be built of brick, iron, stone, concrete or brick veneer with roofing of metal, gravel covered roof or slate.

13. Upon a conviction for a breach of the provisions of this By-Law, the convicting Justice, besides imposing a fine and penalty, may order the offender to carry out the requirements of this By-Law within a certain period of time, and in default of the offender carrying out such an order, the Building Inspector or other duly authorized officer, and in case of non-payment thereof the same shall be recovered in like manner as Municipal taxes.

14. Any person or persons guilty of an infraction or breach of any of the provisions of this By-Law shall, upon conviction thereof before any Justice of the Peace having jurisdiction in the said Town, forfeit and pay a fine not exceeding \$100.00 exclusive of costs, for each offence, and in case of non-payment of such fine and costs inflicted for any such breach, it shall and may be lawful for the Justice of the Peace, convicting as aforesaid, to commit the offender or offenders to imprisonment for each offence, and in case of the nearest common goal for a period not exceeding thirty days, unless such fine and costs, including the costs of commitment, are sooner paid.

15. The Mayor, or in his absence, the Chairman of the Fire, Water and Light committee or chief of the Fire Brigade, is hereby empowered to order entry upon private property and order the removal of any building or buildings in the vicinity of a fire when action is deemed necessary in order to prevent the spread of fire.

16. The Chief of the said Fire Brigade or any member of the said Brigade is hereby authorized to enter any building in case of fire or if he has reason to believe that there is a fire in the building; and in no case for such action or damage by use of water or chemicals shall the Town be liable for any damage done.

Done and passed in Council at the Town of Taber, this 23rd day of February A.D. 1910.

Mayor.

Sec. Treas.

NOTICE

NOTICE is hereby given that in accordance with the provisions of the Frigate Act, the Municipality of the Town of Taber has filed the memorials and plans filed to enable the water so diverted to be used for the said other purposes within the limits of the Town of Taber, Alta., as set out in the said Act, this 30th day of May, 1910.

Municipality Town of Taber.
W. H. Douglas, Mayor.
Geo. C. Millar, Secretary-Treasurer.

Prizes for Clean Crops.

Local Agricultural Societies in Alberta are giving \$100 prizes for the farmer who produces the best ten acres of clean seed grain.

According to W. C. McKillop, the district officer of the Dominion Seed Branch, these competitions will have a far reaching effect in improving the quality of the grain produced in the Province.

It is difficult to prevent the mixing of varieties of grain and the spread of weeds in a system of farming so extensive as ours. To combat this tendency and to develop heavy-yielding, early varieties is the purpose of the Agricultural Societies in offering these handsome prizes. It is believed that by stimulating a spirit of friendly rivalry and by offering material reward to the successful, the general quality of the crops in a whole neighborhood may be effected.

The support of both the Provincial and Dominion Governments is behind these competitions. The former gives a money grant and the latter supplies expert judges to inspect the fields. The majority of the more progressive Agricultural Societies in the Province have already organized competitions.

Sport

BOXING

Stanley Ketchel has one more fight in the east, then he will beat it for the golden west. Ketchel will exchange wallops with Jack (Twin) Sullivan, of Cambridge, Mass., for twelve rounds before the Attorney A. A. in Boston on Tuesday night. This is their second meeting. Ketchel having knocked Sullivan out in the twentieth round at Colma, Cal., on May 9 two years ago. Charley White will adjudicate the affair.

New York, June 4.—One month from to-day the heavy-weight championship of the world will be decided in San Francisco when James J. Jeffries, the undefeated retired champion, meets the present holder of the belt, Jack Johnson, of Galveston, Texas. The white man has ruled a favorite in the betting, although Johnson has a big following in both the east and west. The only place on the map where the folks think he hasn't got a show is in the south.

Jeffries has been in active training for nearly two months at Rowandennan, while Johnson has been working earnestly for about a fortnight. Johnson says he could have prepared for the fight in three weeks and points to the fact that he prepared for his battle with Tommy Burns (when he won the title) in five weeks and did all his road work before 8 o'clock in the morning at that.

The negro champion is well satisfied with his past performances. The way he looks at it, is that if he had gone into training when his advisers wanted him he would have been dead stale by this time.

Both men are already in a condition so nearly perfect that one wonders what more can they expect from nature. Their physical condition is described by the old English sporting term "as fit as a trout," which means that they couldn't be fitter.

The expert opinions on the Johnson-Jeffries fight, received up to date, are below. The opinion of Cappy Smart is also included, and what he says is based upon sound facts.

It is one of the greatest questions of the day in the sport line, and opinions are about evenly divided up to the present.

Fire Chief and Boxing Referee, Calgary.

Who will win? Johnson if the fight is on the square.

How many rounds? Ten to fifteen.

Is the fight a "frame-up"? I am inclined to think it is. It looks like a frame-up.

After a five years' layoff is it reasonable to assume Jeffries can "come back"? No; there is no man in that game can come back into the

same condition he was in five years ago, after retiring for that time and living as Jeffries has. He may get back into fairly good condition, sufficiently to suit the pictures and crowd but not his old shape. What are your reasons for thinking it is a "frame-up"? Where there is so much money at stake there is more chance for a frame-up. From the dope on the fight that I read from expert fight critics, I believe it will be a frame-up.

CAPPY SMART.

Sport Editor Brooklyn Eagle.

Who will win? Jeffries. How many rounds? Twelve.

Is the fight a "frame-up"? No. If there is a pre-arrangement, what is the nature of it? None.

After a five years' layoff is it reasonable to assume Jeffries can come back and fight with his old speed, stamina, and vigor? No, quite, but he should go some for a short distance; within, say, 12 rounds.

A. YAGER.

Sport Editor Baltimore News.

Who will win? Johnson, from present outlook.

How many rounds? Thirty.

Is the fight a "frame-up"? No. After a five years' layoff is it reasonable to assume Jeffries can "come back" and fight with his old speed, stamina and vigor? No.

I believe Johnson will "un-can" 15 or 20 rounds and thus tie Jeffries. If Jeffries could "come back"—there's the rub.

EMANUEL DANIEL.

WRESTLING

Chicago, June 3.—Frank Gotch says he will now retire to his farm in Iowa. In a statement after his defeat of Zhyzsko last night he said: "I am now through with the wrestling game. I am 33 years old and it will be the simple life for me in the future. Many good wrestlers have waited too long and have been beaten. I am going to try to avoid that. The first falls with Zhyzsko came as I had planned it. The second was hard, in fact as tough a bout as I have been in. There was no time wasted or I could not have thrown the Pole as I did. I will leave for the coast and see if I can help Jeffries out, and then there will be a long rest coming to me."

Zhyzsko said: "It was no disgrace to be beaten by a man like Gotch. He is a jockey. That's what you call it, is it not? I had hoped to defeat the champion and take the title back to Europe with me. Now, since I have lost I am going home just the same, as fast as the boat will carry me. I have no protest on the first fall. It was true I was not set and had at least expected to shake hands with my opponent."

DAYTON, Ohio, June 3.—Orville and Wilbur Wright stated last night that they will enter the long-distance aeroplane contests which have been announced, if the conditions are favorable.

Aeroplane to Fly in Canada.

Toronto, June 3.—Wright brothers, the noted aeronauts will send five machines to take part in the big aviation meet here early in July. They themselves will fly two of the machines. Messrs. Baldwin and McCurdy, the Canadian aviators, will also be here with two machines. Several noted aviators from Europe are expected also.

Montreal, June 3.—E. M. Wilcox, managing director of the Montreal aviation meet, which is to be held at La Prairie across the river, from June 25 to July 4, has received the entry of five Wright aeroplanes for the contests for which prizes of over \$50,000 will be offered. Mr. Wilcox states that the Montreal meet will have double the number of aeroplanes which competed at the Los Angeles meet and that it will be the largest yet held in America.

A representative is now in Paris negotiating for the appearance of the noted French aviators. The show is only three years old, the first one having been held in a barnack, but it has now blossomed forth in a new building, erected specially for the purpose, which was filled every day and evening with the cream of the northwest's population. Nearly twenty hundred entries had been received, and shown at morning, afternoon, and evening sessions, were of the highest classes of horses and ponies of every breed.

BANK OF HAMILTON

Economy is, in Itself, a Great Income

If your income were greatly increased to-morrow, it is questionable whether you would be in any better position financially at the end of the year, without the incentive to save that a Bank account affords.

In other words, you must learn to save—and this

valuable lesson is best learned by the opening of a Savings Account.

The process is simple, and the habit soon becomes fixed.

Call to-day at the nearest branch of the BANK OF HAMILTON.

Even if you only deposit one dollar, to start with, it is worth your while.
